

Non-example
when people
don't use this
motto

Can't go wrong
all the
time
Use

Treat People With
Your Head + Heart

learned this phrase
when I was teaching
in Abbotsford

World - a better
place

Simile
World would be
like a room
full of happy
babies all the
time

Just 1 thing

Thank-you! Thank you for giving me the opportunity to share something really important. If I could say only 1 thing I would like to tell people to “Treat people with your head and your heart.” I learned about this phrase when I was teaching in Abbotsford many years ago and it is so powerful it has stuck with me ever since then. Just imagine if everyone treated others with their head and their heart how the world would be. The world would be like a room full of happy babies all the time. Who could resist that? At times people argue, get mad at each other and feelings are hurt. When people slow down, think about what they are going to say, and check if it follows this motto they can't go wrong. Our world would be a much better place if everyone used their head and their heart.
